Charging Time	2H
Charging Port	Type-C
Working Time	4 to 6H (50% Volume)
Micro SD Card	16GB Max (Not Included)
Display Size	2.64"
SNR	78dB
Rated Power	5W
Frequency Range	100Hz to 20kHz
Product Weight	200g
Product Size	41.5 x 59 x 80mm
Model Number	PD-STWLEP051

Bluetooth Connection Guide

1. Press and hold the "🔌" button for three seconds. Release the button when you hear the power-on tone, indicating the speaker is active.
2. Open the Bluetooth settings on your phone and search for available devices.
3. Select "PD-STWLEP051" from the list of devices. Wait for the confirmation tone indicating "Connection successful."
4. You can now start playing music through your speaker.

App Guide

1. App Installation

Method 1: Download the application from Google Play or App Store.

For iOS Devices: Go to the App Store and search for "Joy Audio" to download and install the app.

For Android Devices: Open the Google Play Store and search for "Joy Audio" to download and install the app.

Compatible Devices: The app is compatible with iOS, Android, Huawei, Xiaomi, and VIVO devices.

Method 2: Scan the QR code to download

Important: The device does not support simultaneous connection to multiple users.

Lyrics display area Play/pause, up and down song control buttons Volume adjustment control

Swipe up to enter the lyrics interface.
Swipe down to exit the lyrics interface

Bluetooth not connected
prompt interface

Upon encountering this interface, please ensure the following:

- 1.** The Bluetooth switch on your device is turned on.
- 2.** Your mobile phone's Bluetooth is both activated and successfully connected.

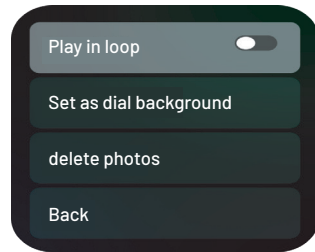

Album Function

Access and browse your local album directly on the speaker using the album application.

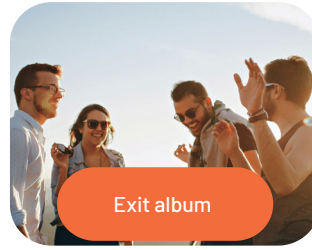

- 1.** Local Album Storage: You can transfer photos from your mobile phone to the speaker's SD card via the app.
- 2.** Customizable Album Display: Personalize the speaker display by setting your favorite album photos as the background, according to your preferences.

Press and hold to enter photo settings

Open Loop Mode: Enable this feature for photos to automatically cycle through. You can set a selected photo as the main dial background, delete a photo, or exit this function.

Click to exit album

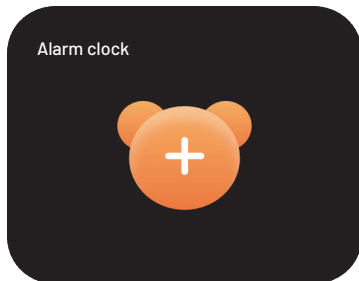

If a photo transferred via the app is in an incorrect format, it will not display properly. It is recommended to delete such photos.

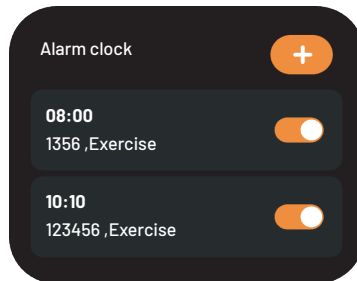

Alarm Function

Users can customize alarms based on their preferences, including setting the alarm time, the number of days it repeats, and toggling it on or off.

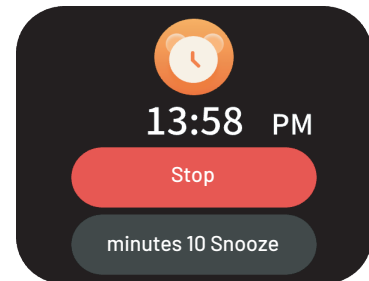

1. Number of Alarms: Up to five alarms can be set.
2. Setting Methods:
 - 2.1 Directly on the speaker.
 - 2.2 Through the app by accessing the alarm function.

Alarm setting

Alarm List

The alarm will turn off immediately.
The alarm will reset in 10 minutes.

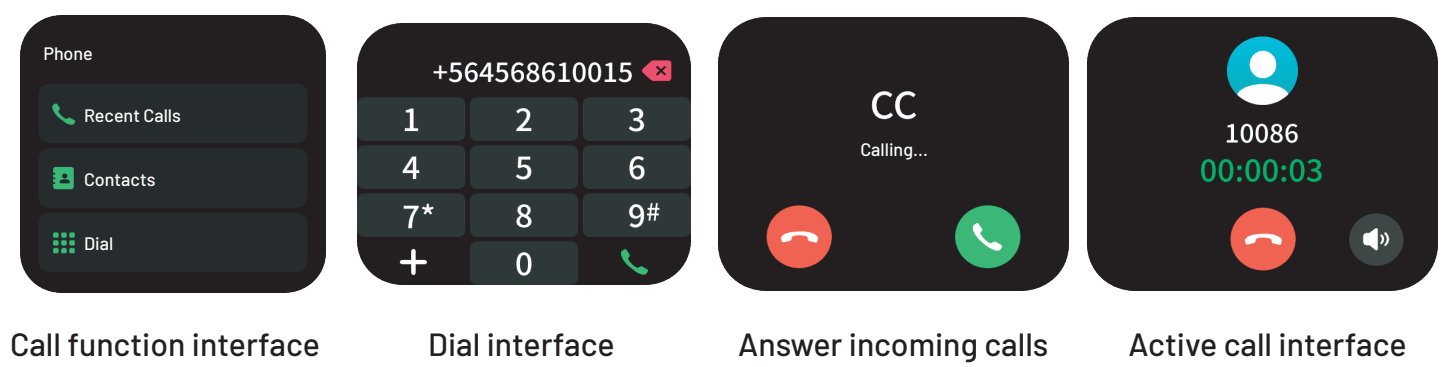

Call Function

When Bluetooth is connected, this feature allows users to answer calls, hang up, store frequently used contacts, and access call records.

1. Dial Function: Users can dial numbers directly from the speaker's dial pad when Bluetooth is connected.
2. Contacts: The speaker can store up to 10 common contacts through the app,

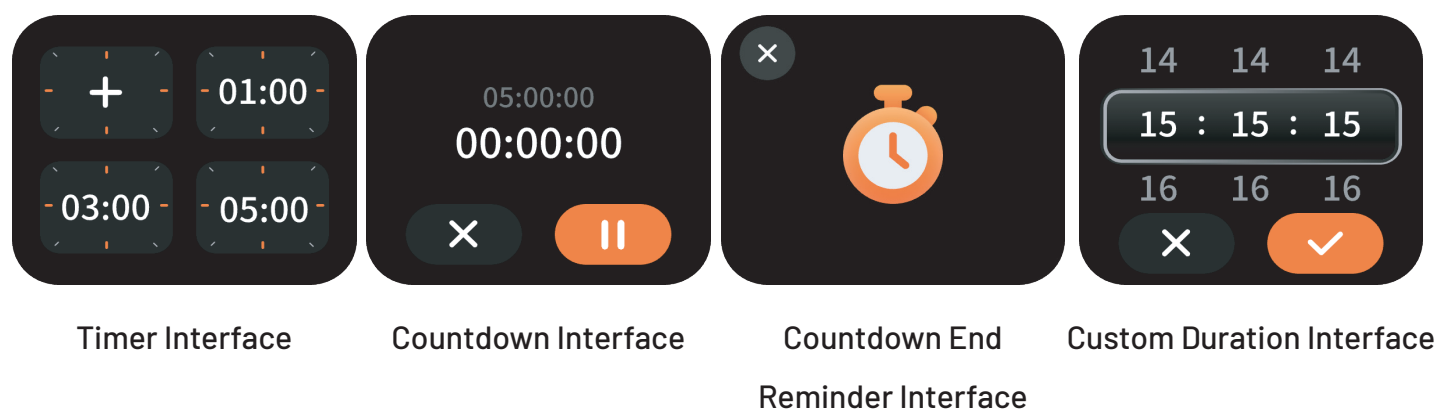

simplifying the process of making calls.

3. Call Logs: This function saves call history for easy access.

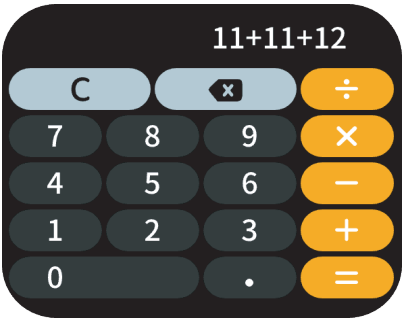

Timer Function

Set a countdown timer for specific durations (1 ,3 ,5 ,10 ,15 ,30, or 60 minutes). A sound reminder will be issued once the countdown completes.

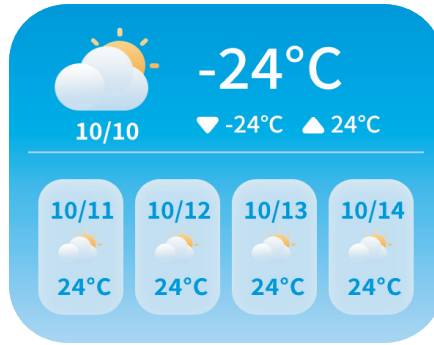

Calculator Function

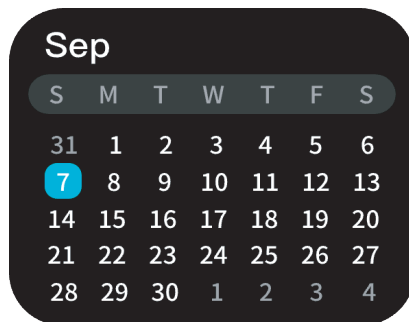

This feature allows users to perform simple mathematical calculations and view the results immediately.

Timer Function

Once connected to the device, the app automatically synchronizes weather information to the audio weather function interface, enabling convenient access to weather updates for users.

Calendar Function

Users can easily access and view calendar information.

Settings

Bluetooth Switch: Activate this switch to enable connection of the mobile phone's classic Bluetooth. This allows the phone to search for, connect to, and play music via Bluetooth. Manually turning it off will disconnect the Bluetooth and mute the phone's audio.

Adjust the Screen Brightness Level: Increase the level to enhance the screen's brightness.

Screen-Off Dial Function: When activated, a dial will appear after the screen turns off.

Screen-Off Time: Choose the duration the screen remains on before automatically turning off. Options include 1, 3, 5, 10, 30 minutes, or the screen can be set to never turn off automatically.

Ringtone Volume: Users can adjust the volume for various tones including the alarm, countdown timer, incoming call, and SMS ringtones.

Silent Mode: Activate silent mode to disable all prompt sounds, ensuring no disturbances.

Language Settings: Users can configure the display language, typically set to the native language for ease of use.

Restore Factory Default Settings: Activating this function will clear all current user settings and revert the device to its original factory configuration.

Restart: Selecting this option will restart the device.

Shutdown: Choosing shutdown will power off the device. It is recommended to shut down the device if it will not be used for an extended period.

APP Download QR Code: Users can scan this QR code using a browser or apps to access the official Jingjia website. From there, download the Joy Audio app to unlock additional features.

Device Information: Access detailed information about your device, including its name, model, Bluetooth address, software version, and more.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

Warranty

Products that you buy directly from our **Porodo** website or shop come with a 24-month warranty.

When you buy **Porodo** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at **porodo.net/warranty** and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.
